

## Dar es Salaam Administrative Wards

**Abstract:** Wards (Kata in Swahili) are administrative regions in Dar es Salaam. Wards corresponds to administrative level 3 in Global Administrative (GADM) database of high-resolution administrative areas. Original data is provided by the Tanzania National Bureau of Statistics from the year 2012. Five new wards of Bonyokwa, Kisukuru, Liwiti, Mnyamani and Pugu Station were mapped by the Ramani Huria team and added to this data set in 2018.

Alternative Title		
Resource Status	completed	

### WHAT

Resource Purpose	The dataset was created to know and have all the 95 wards of Dar es Salaam in an open source and in one shapefile that can be used for different purposes.
Spatial Representation Type	vector
Topic Category	Boundaries
Keywords	administrative boundaries wards theme United Republic of Tanzania place

### WHERE

#### GEOGRAPHIC LOCATION

North Bound	South Bound	West Bound	East Bound
-6,56620645523071	-7,18149089813232	39,0071563720703	39,553768157959

#### GEOGRAPHIC IDENTIFICATOR

Resource Maintenance	notPlanned

**HOW****SPATIAL RESOLUTION****QUALITY**

Statement	<p>Origin: This data set was obtained from the National Bureau of Statistics: <a href="https://www.nbs.go.tz/index.php/en/census-surveys/population-and-housing-census/173-2012-phc-shapefiles-level-three">https://www.nbs.go.tz/index.php/en/census-surveys/population-and-housing-census/173-2012-phc-shapefiles-level-three</a> Lineage: The Ward boundaries and important features collected during the field mappings were added to a geographical information database, which contains polygons (commonly referred to as shapefiles) and related attribute information. Every effort was made during census preparation to ensure that the boundaries were as accurate as possible but there may be examples of discrepancies between these maps and actual boundaries on the ground. Where this is the case, it is important to recognise that the boundaries presented here are the ones against which all NBS census results are reported. NBS intends over time to corroborate and where necessary correct boundaries for future use where appropriate, but it is not possible or desirable to adjust already published census data. Note from Ramani Huria: The Ramani Huria team has updated this data set with five new Wards (Bonyokwa, Liwiti, Mnyamani, Kisukuru and Pugu Station). Data Quality Statement: Topology of this data set was fixed.</p>
